Interests of Members of the Scottish Parliament (Amendment) Bill

Dear Sirs

I would like to raise the point that MSP, s should have to disclose all gifts given to them, but for of course from families and friends, of a personal nature.

It is in the taxpayers interest to know who are giving gifts to our elected members, I suspect what will happen is that most gifts will have a value of £270.

I also believe that travel costs should be included in the reporting, as an example tickets to a football game valued £200 should also include travel and hospitality if also paid for by the way of a gift.

I hope my comments will be considered.

Yours Sincerely

Alex Macleod
