4 February 2013

Dear Maureen

I would like to draw the attention of the Committee to the update we are publishing today on the Infrastructure Investment Plan 2011.

We are publishing three documents today:

- an update on progress made with projects since publication in December 2011;
- an updated programme pipeline; and
- an updated project pipeline.

These can all be found on the Scottish Government website at
<http://www.scotland.gov.uk/Topics/Government/Finance/18232/IIP>

You may wish to note that the project pipeline has been extended. As well as projects with a capital value of £20million or more which are ongoing or which are in preparation, the pipeline now includes information on those school projects which are being delivered through the Scotland's Schools for the Future Programme and community health projects with a value of £5million or more that are being taken forward through the Scotland-wide 'hub' initiative.

I hope you will find this information helpful.

NICOLA STURGEON
