

Submission from Nan Fotheringham

In my area we have a problem with the size of vehicles parking. At time we have at least 3 large vans parked obstructing traffic coming out of junctions also obstructing the view of drivers trying to get out of driveways. We also have drivers parking across corners making crossing the road very difficult. As there is a primary school it makes this very dangerous for children going to and from school. Some monitoring is required to see what can be done to make our road safer.
