

## Submission from David McGuinness

I am writing with regard to the above Bill, having already made an online submission. I write here to attach photographic evidence of dangerous parking on footways as a result of the law being unclear.

The photographs are of Weymouth Drive in Kelvindale, Glasgow G12, in the area surrounding a private school's playing fields on the day of a school event in October 2009. As can be seen, pedestrians were forced to walk in the middle of the road as a result of both footways being blocked by visiting parked vehicles, presumably accustomed to different parking conventions which apply elsewhere. I very much welcome the clarity the proposed Bill would bring.
